Accusharp Cutting Tools have entered into this new segment of Round Tools for Deep-Hole Drilling applications.

The application are for deep holes drilling on Crankshaft, Engine blocks, Turbo Blades, Paper Rollers, Machine Tools, Fixturing, etc.

Our standard grinding geometry can meet most of the industrial deep hole drilling applications.

However, for deep drilling into long chipping material work piece or material that is difficult to machine, we design and manufacture Gun-Drills with special geometries, accordingly.
