

**globalinx**  
A Total Solutions Partner

---

## who we are ?

We are a unique combination of an expert engineering team which provides turnkey solutions for Press Tools, Fixtures & Robotics Automation. Our biggest asset is our domain experts who are making contribution to Automotive Industry every day.

## why we started ?

To provide effective end to end services under one roof to achieve hassle free cost effective solutions align with customer's objective.

## our core values

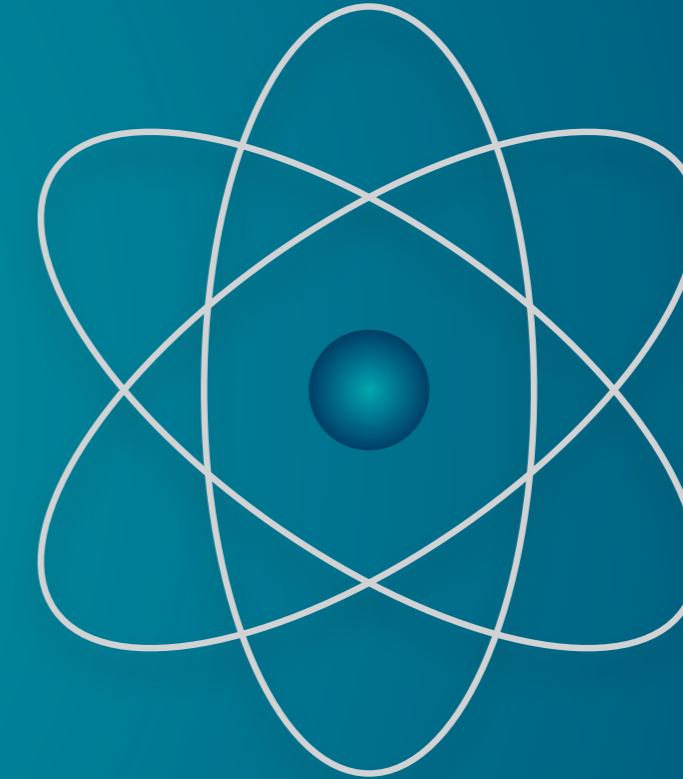

Collaboration   Contribution
