## Case Study – Feeding parts of disposable blood bags

**Industry - Pharmaceutical Industry**

### Requirements -

1. High Speed – Upto 150 pieces per minute
2. Critical orientation

**Orientation – Various**

### Accessories provided –

1. Stands
2. Gravity chutes
3. Linear tracks
4. Auto-switch off mechanism
5. Elscinthane PU coating
6. Elevator
7. Hoppers

**Vibrator Model – Model 250 & Model 400**

### Description -

Elscint has recently manufactured vibratory bowl feeders for feeding of various components, which go into the manufacture of disposable blood bags. The whole system consisted of 14 vibratory parts feeders and 10 linear vibrators. All the components were of plastic and being light weight, a very complicated orientation was required.

### Further operation -

Assembly Machine
