## NORTON PSA Back-up Pads

*Soft density low profile pads utilize 1/2" thick foam for fine finish sanding and offer moderate conformability to contours and curves. They are available with either PSA (vinyl) or Velcro (hook and loop) faces. Both designs are shock resistant and have a fiberglass backing plate with a riveted 5/16" - 24 threaded shank for added strength and increased heat resistance. They are also available with a standard 5-hole pattern for vacuum assist sanding. These pads are popular for both wood-working and automotive applications and are designed to suit all popular models of pneumatic orbital sanders.*

### NORTON PSA BACK-UP PADS

#### FEATURES

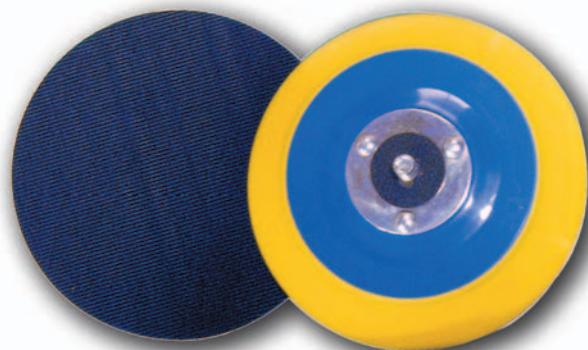

- ▶ Special Vinyl facing
- ▶ Industry standard thread

#### BENEFITS

- ▶ Helps adhesion of disc yet facilitates easy removal
- ▶ Compatible with all popular machines

## NORTON Velcro Back-up Pads

*Designed with medium density polyurethane foam and a tapered edge for conformability, these pads are firm enough for flat surfaces, yet soft enough for severe curves and contours. Available with Velcro (hook and loop) faces in vacuum or non-vacuum. The vacuum design is available in standard 5-hole or 6-hole pattern.*

### NORTON VELCRO BACK-UP PADS

#### FEATURES

- ▶ Special hook facing
- ▶ Industry standard thread

#### BENEFITS

- ▶ Strong holding and easy removal of discs
- ▶ Compatible with all popular machines
