

Advantages of Pre-Engineered Structure

Metal makes sense for industrial construction and our pre-engineered structure gives you more advantages.

- Larger clear span / Light weight**
- Weather/ Dampness proof**
- Maintenance free coloured metal sheets**
- Cranes / Mezzanine floors can be added**
- Recyclable material**
- Design based on Indian Standard codes**
- Minimum lead time / Rapid installation**
- Minimum maintenance / Durable**
- Flexible design for easy expansion**
- Reduction in project cost/ Economical**
- Earthquake / Seismic resistant**
- Architectural versatility**
- No site drilling / cutting / welding required**
- Single source responsibility / Turnkey solutions**
- Design ensures minimum wastage of steel**
- Consistent & superior quality**
