

Dock bumper ADB

Long life impact absorbing rubber bumpers.

Features

- Good protection of building and vehicle
- Different sizes and models
- Available for different applications
- Consoles and protection plates are available in galvanized or RAL 9005 finish

ADB rubber bumpers

Made of long life impact absorbing rubber to protect buildings and vehicles.

All dock bumpers are equipped with countersunk mounting holes.

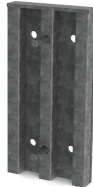

Article nr.	Dimension WxHxD (mm)	Weight per pair (kg)
ADB-4008	80x400x70	8
ADB-3010	250x300x100	12
ADB-5010	250x500x100	24
ADB-5015	250x500x150	36

Consoles

Suitable for safe installation of the dock bumper to the building. In a renovation, where the loading dock is damaged, these consoles are indispensable.

All consoles are equipped with studs.

Article nr.	Dimension WxHxD (mm)	Weight per pair (kg)	Suitable for rubber bumper
ADC-3010	250x300x10	14	ADB-3010
ADC-3050	250x300x50	21	ADB-3010
ADC-3090	250x300x90	30	ADB-3010
ADC-5010	250x500x10	22	ADB-5010 or 5015
ADC-5050	250x500x50	33	ADB-5010 or 5015
ADC-5090	250x500x90	48	ADB-5010 or 5015

Protection plates

Suitable for intensive use of the loading dock. Available as straight or bended model guard.

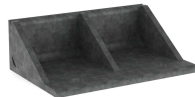

Article nr.	Dimension WxHxD (mm)	Weight per pair (kg)	Suitable for rubber bumper
