

R. K. INDUSTRIES

Mfgs. of. Rotary gear pump, Water – Ring Vacuum pump & oil sealed vacuum pump

Factory & Office : B/210, Gokul Industrial Estate, Plot no. 150, Marol Co- Op. Industrial Estate
Ltd, Mathurdas vasanji road, Andheri (E), Mumbai - 400 059

We have been manufacturing since 1986

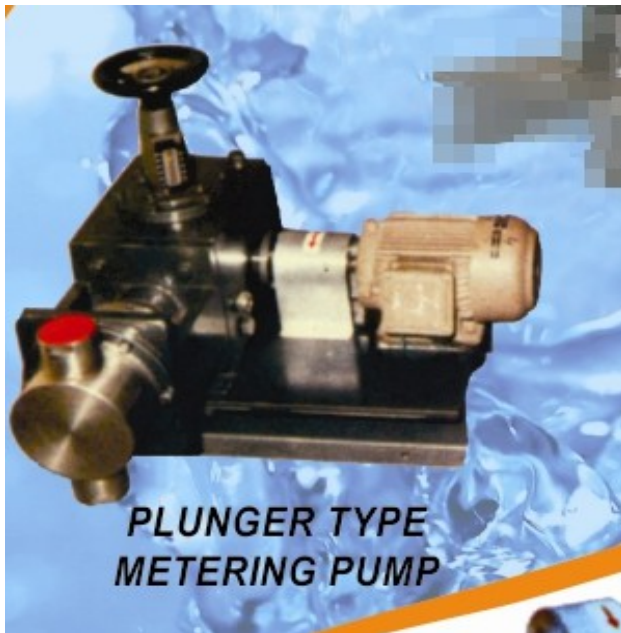

- ❖ Rotary Gear Pump
- ❖ Water- ring vacuum pump
- ❖ Oil sealed vacuum pump

Now we have started manufacturing:-

- ❖ **PLUNGER TYPE METERING PUMP & VERTICAL MOTOR**

PLUNGER TYPE METERING PUMP :-

Plunger type metering pump for accurate dosing of chemicals with variable flow-adjustment. This can be achieved when the pump is in running condition. The pump can be manufactured in SS-304, SS-316 and Teflon construction. Accuracy of flow rate is 2% This pump can be offered with electric motor horizontal position and electric motor vertical position.

❖ **DIAPHRAGM TYPE METERING PUMP :-**

We have also developed diaphragm type metering pump which will have hydraulic oil on one side and the other side it can pump slurry to be pumped. The flow rate will be accurate upto 2%. This pump is ideal for slurry. Since there the diaphragm will activate the flow there will not be leakage in the pump.

The pumps are rigorously tested before dispatch. We request you to register our self for the above item and send as your regular requirement

❖ DRY TYPE VACUUM PUMP :-

Dry type vacuum pump for suction capacity upto 150 lpm and maximum vacuum 650 mm Of Hg are available. We offer both total dry and lubricated vane type vacuum pump. Dry type vacuum pump for the following models are available:-

Sr. No.	Model	Max Vacuum	Motor HP	Suction capacity	MOC
1	SV- 150	650 mm of Hg.	0.5 HP	150 LPM	Cast Iron
2	SV-300	650 mm of Hg	1 HP	300 LPM	Cast Iron
3	SV-500	650 mm of Hg	2 HP	500 LPM	Cast Iron
4	SV-1000	650 mm of Hg	3 HP	1000 LPM	Cast Iron

Cooling arrangement by external fan : Model :- SV- 150

**Thanking you,
For R.K. Industries**
