

TBSL BPM (IMS) Policy

Business Process Management Policy

We at Tata BlueScope Steel aspire to be the preferred supplier to the steel building, cladding and framing industry while striving to achieve “Zero Harm” to people and the environment in which we operate.

Our aspiration form the basis of establishing and reviewing the business objectives and our commitments to...

Leverage our superior technology and build our organizational capabilities to deliver high quality products and services.

Efficient use of resources, preventing pollution, and reducing the environmental impact of our operations and products.

Provide safe, healthy working environment, reducing hazards and risks of work related injury and ill health.

Satisfy applicable product, industry, legal and other compliance obligations.

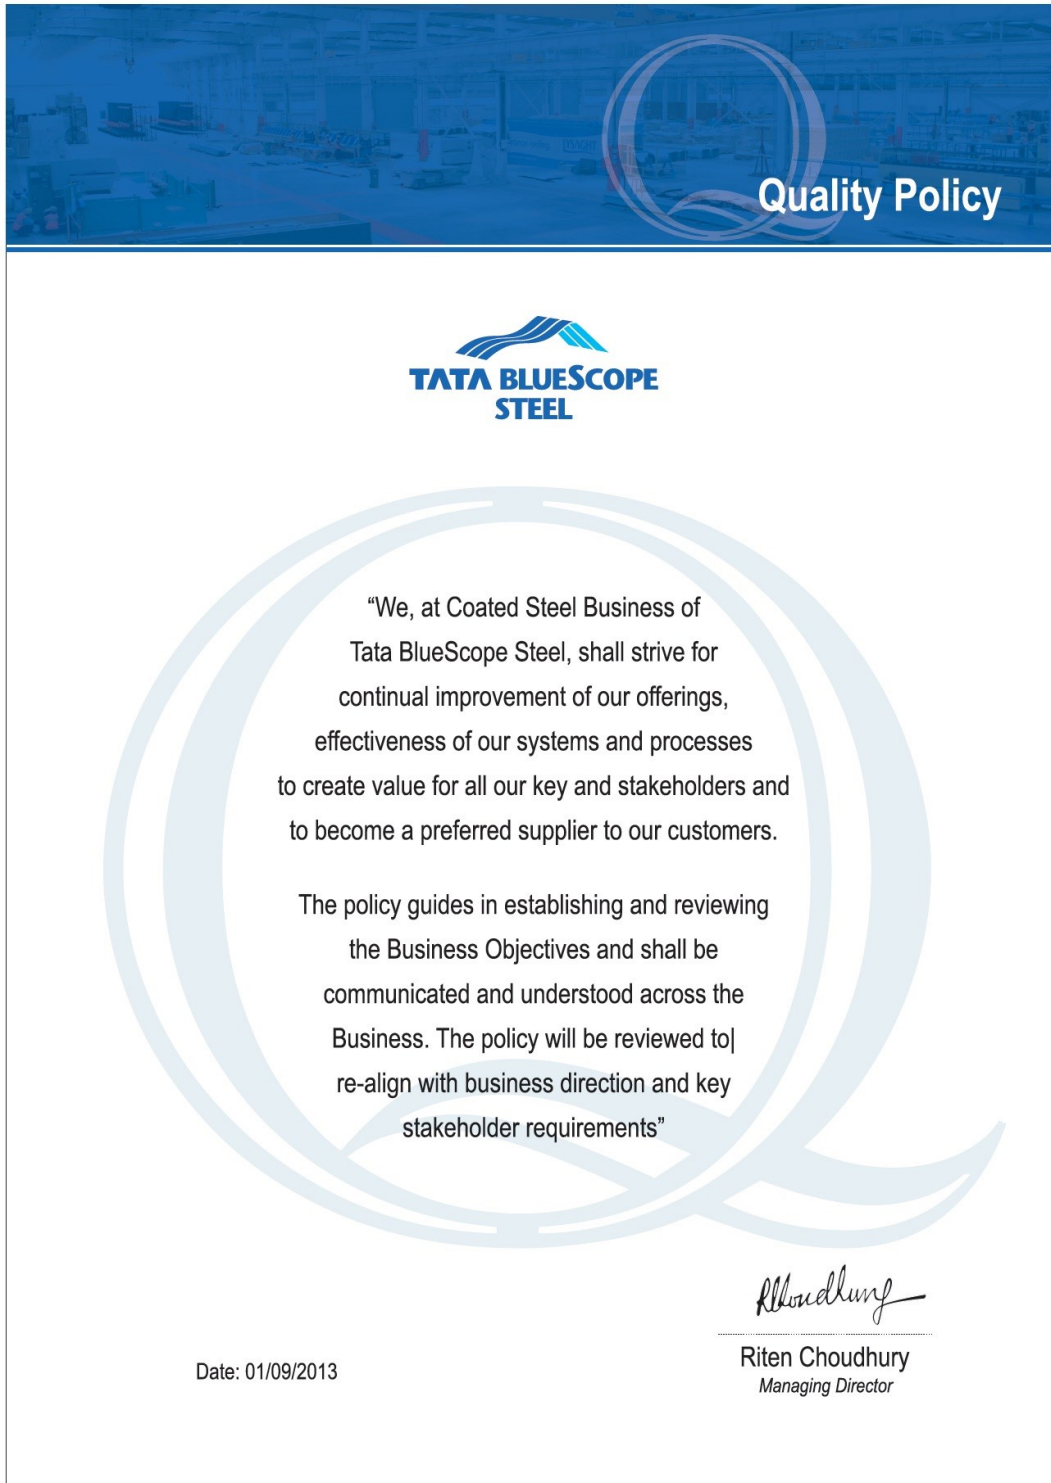

We'd continually improve our products, services, systems and processes in our journey to achieve excellence in everything we do, engaging our employees and key stakeholders.

HSEC Policy

OUR HEALTH, SAFETY, ENVIRONMENT AND COMMUNITY (HSEC) POLICY

At Tata BlueScope Steel Limited, our Health, Safety, Environment and Community responsibilities are integral to the way we do business

Our Commitments

We are committed to continual improvement in our HSEC performance.

Health and Safety

We aspire to zero harm to people. Our fundamental belief is that all injuries and illnesses can be prevented. This responsibility is with each one of us.

Environment

We care for the environment and are committed to the efficient use of resources, reducing and preventing pollution, and product stewardship.

Community

We strive to be valued corporate citizens in our communities. We respect the values and cultural heritage of local people.

Our Actions

To meet our HSEC commitments, we will set targets, develop, implement and maintain management standards and systems, and comply with applicable industry standards, legal and other requirements.

We will regularly monitor and report publicly on our progress.

We will engage with our stakeholders to build relationships based on honesty, openness, mutual trust and share responsibility for meeting goals of our HSEC Policy.

We will identify, assess and manage our HSEC risks.

We will truly succeed only when we achieve our health, safety and environmental goals and are valued by the communities in which we work.
